Economic Impact of Mississippi’s Nonprofit Sector

- Employs 56,883 people, 6.4% of the state’s workforce
- Generates more than $9.8 billion in annual revenues
- Holds assets of nearly $21 billion
- Mississippi foundations annually give over $96 million
- Mississippians give over $1.5 billion to charity each year, representing over 5 percent of household income

Public Charities and Foundations Benefit Mississippi Communities

Deliver vital community services
- The American Red Cross has served Mississippi since 1917. Volunteers and staff assist communities daily with disaster response, assistance for military families, international aid, lifesaving training programs and blood services. As part of its Home Fire Campaign, it has installed more than 12,000 smoke alarms in Mississippi.

Advance solutions for challenges facing society
- The Foundation for the Mid South is in the business of improving lives in Arkansas, Louisiana, and Mississippi. It is a daunting task because the Mid South is home to 30% of the nation’s poverty. The Foundation for the Mid South was established to bring together the public and private sectors and focus their resources on increasing social and economic opportunity. Their approach is straightforward and long term: enable communities to develop solutions to better conditions and improve lives.

Contribute to vibrant communities
- The Mississippi Museum of Art has been a community-supported institution for more than 100 years and offers family, school and community educational programs to extend learning opportunities and access to the Museum’s collection. Since 2009, the Museum has partnered with Operation Shoestring to provide art instruction as part of Shoestring’s larger effort to enhance Jackson public school students’ academic performance and quality of life.

Give voice to the people they serve
- The Mississippi Food Network distributes food across the state through a network of 430 member agencies. They feed more than 1.8 million people per year in the state. In addition to distributing donated and purchased food, they provide nutrition education to clients in need.
Note: The “nonprofit sector” encompasses organizations that are defined as tax-exempt under section 501(c) of the Internal Revenue Code. This includes both public charities and private foundations [501(c)(3)] and other nonprofits such as civic league organizations [501(c)(4)]. Exceptions are noted when relevant.
